## **SEMESTER 3 PORTFOLIO READING GUIDE - FINAL VERSION**

Student Number: 522016

Team: Studio Myo

Semester Coach: Amer

# ***ABSTRACT***

## ***INTRODUCTION***

My name is Yurick Neuman. I'm a creative with interest in design and front-end development. I like to tell stories with what I create, and every medium I use is just another way to tell a story.

## ***PORTFOLIO FORMAT***

I chose to create my portfolio as a [website](#), as I've become used to doing so for previous semesters. It gives me a chance to try out new design ideas and learn new means of development. This work can then be applied to the portfolio itself as it proves certain **learning outcomes**.

## ***STATE OF SEMESTER AS OF 19/5/2025***

Currently my team **Studio Myo** has just completed a showcase of a **high-fidelity prototype** of our browser extension **Center**. I have personally been in a burnout but I'm slowly picking myself back up and recovering.

## ***STATE OF SEMESTER AS OF 6/4/2025***

Currently my team **Studio Myo** is working with our client **Studio Krom** to improve digital accessibility. We have just completed our concept poster for our **ADHD-focused browser extension** codenamed **Center**.

## ***STATE OF SEMESTER AS OF 9/3/2025***

Currently my team **Studio Myo** has just wrapped up on creating our general brand identity, and we have sent out motivation letters to clients we were interested in working with.
